# Proportional Fancoil with 3 voltage level

# Proportional Fancoil with 3 voltage level

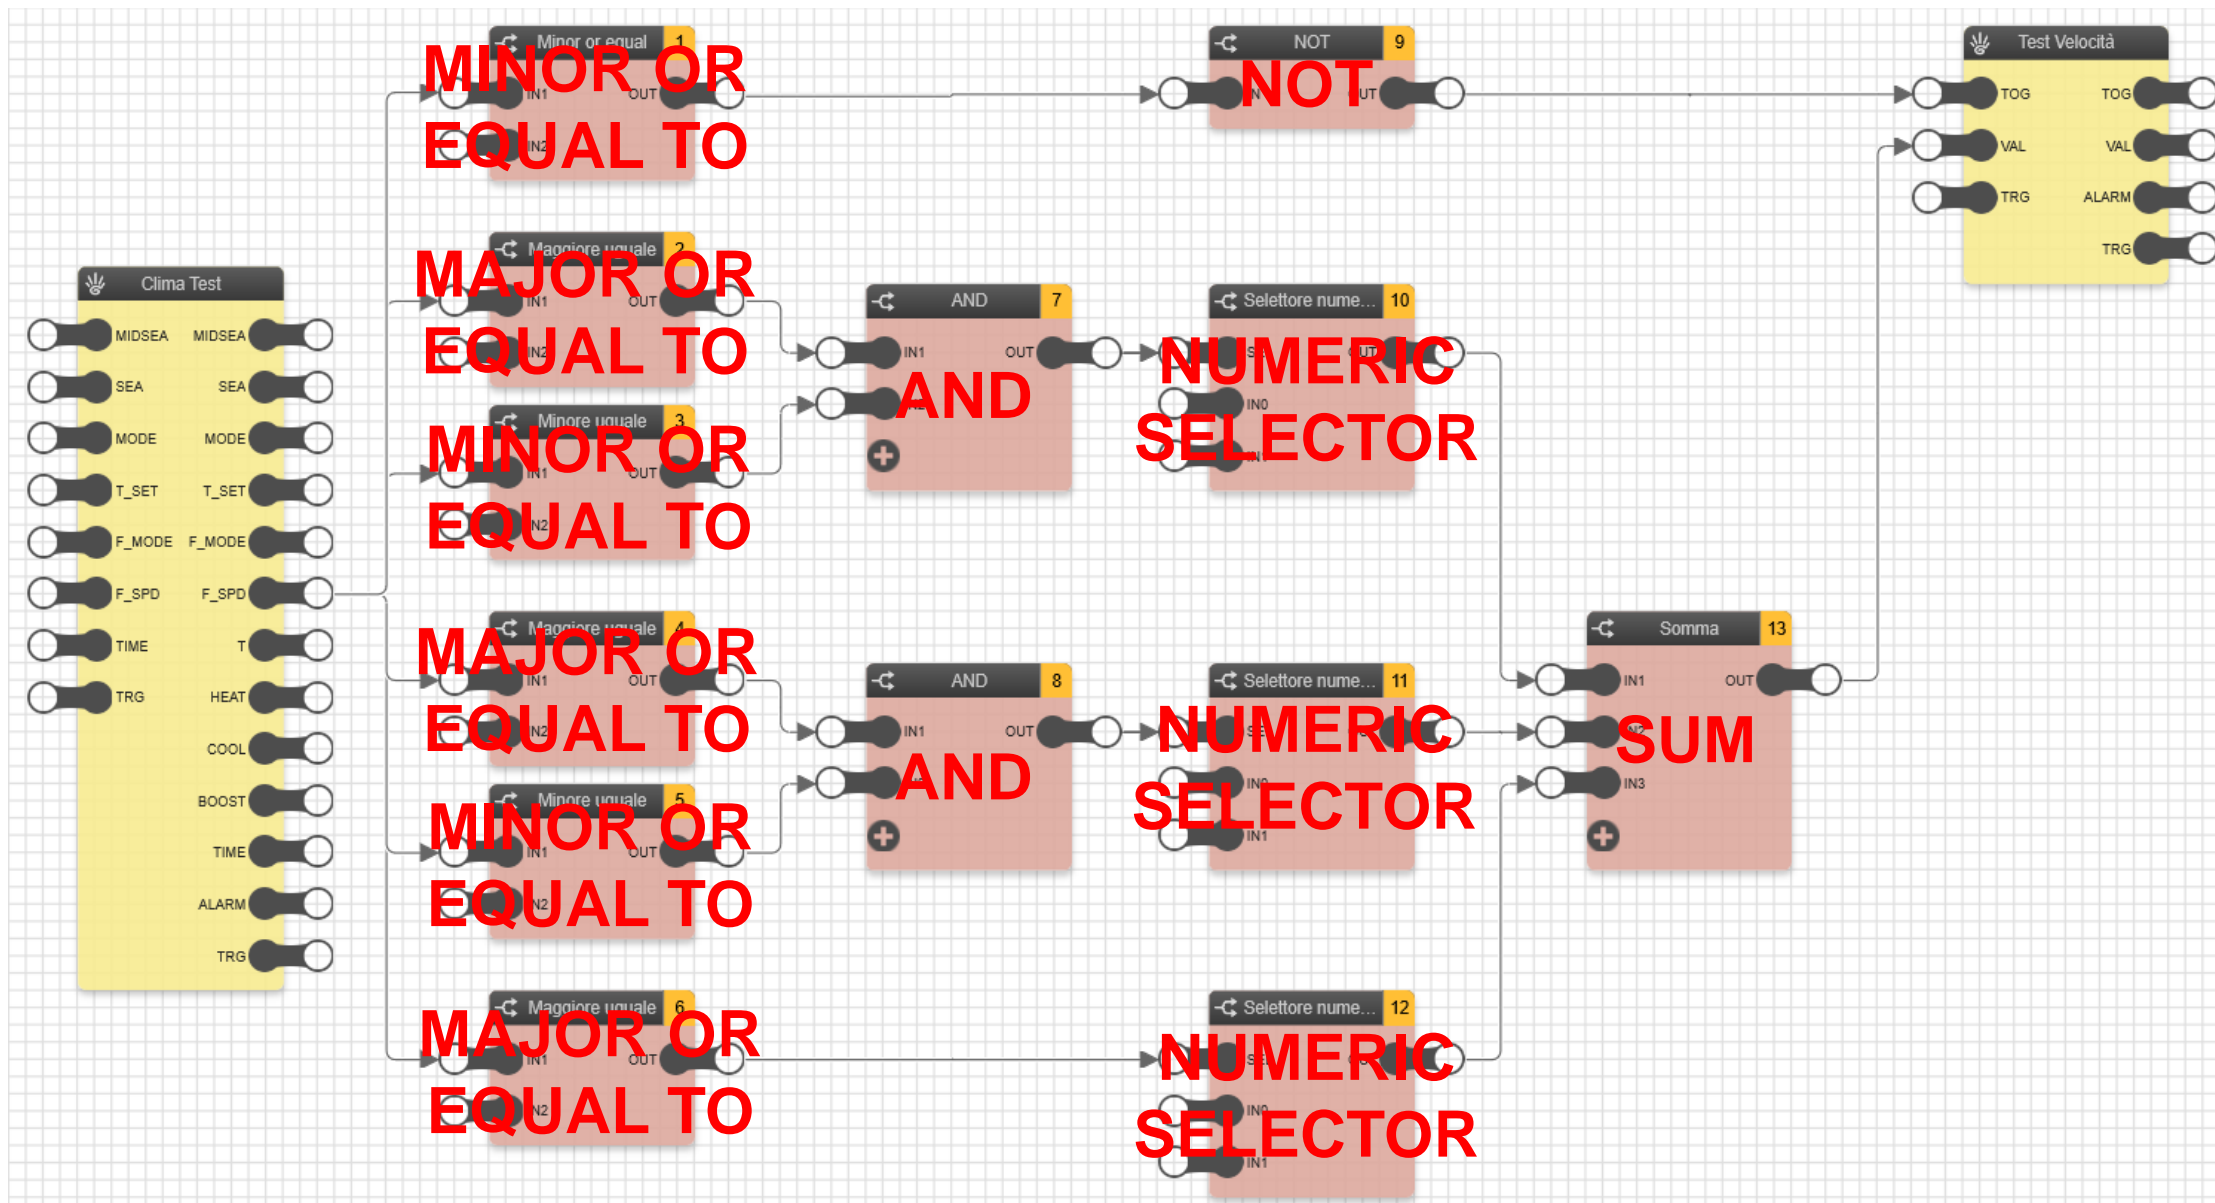

## Elements needed for the functionality:

- Clima application configured as 'Only Air Conditioning', OUT1 as Primary Air Conditioning type '3 speed Fancoil', OUT2 as Auxiliary Air Conditioning type 'Proportional valve'. Leave the Output group 1 with only the thermostat, while add in the second group one output of the 01466.1 to control the fancoil vale.
- Application type 'Voltage analogue dimmer' with an output of the 01466.1 configured to conytrol the fancoil speed.
